

Halloween Party

Halloween is a celebration observed in a number of countries on 31st of October. Halloween activities include trick-or-treating, attending Halloween costume parties, carving pumpkins into jack-o'-lanterns, lighting bonfires, apple bobbing, divination games, playing pranks, visiting haunted attractions and telling scary stories.

In many parts of the world, the Christian religious observances of All Hallows' Eve, including attending church services and lighting candles on the graves of the dead, remain popular.

In our Centre, we celebrate Halloween together with the parents. We all dress up in costumes and invite the parents to come and play some fun games with us. It usually takes about half an hour for each group to have their Halloween parties in the classrooms where they play different games that include all children and preferably parents as well. This gives a good chance for the parents to look around have a little insight into the children's environment and daily routine just a few months after the start of the year. It is a great opportunity to try out some of the circle games and gym games their children often mention at home. After that, all the families visit our specially decorated room for the occasion, which we call the Witch's room.

One week before the party, children start preparing they carve their pumpkins into Jack-o-lanterns and they decorate their trick-or-treat bags. On the day of the Halloween party, after the children say goodbye to their parents, they walk around among other classes, offices and kitchen to visit staff for trick-or-treating.

Our Centre takes great joy in introducing children to many different customs and traditions from as many different cultures as possible. Therefore, it is important for the kids to get to know the American Halloween traditions as well.

Please park all brooms at the door!
