

# End of Year Graduation Party

At our End of Year Graduation Party, we celebrate the children for successfully completed their school year. We organize a separate party for each class and the parties take place in our 'little' garden and last usually about an hour.

On this occasion, we invite all parents to join the children for a few exiting games and fun. After having some enjoyable time together, the teachers give an individual year-end-present for every child.

This year-end-present usually includes an album of photos of the school year, art works of the children and an individual present made by the teachers, expressing their appreciation for the great work and how pleasant, amusing and valuable it was to work together during the school year. To celebrate well the great achievements, the teachers invite all the families to eat some snacks, a cake and drink champagne (kids :)).

The goal of our End of Year Parties is to appreciate the children's work throughout the year and celebrate how superbly they have completed this school year. This party is a great occasion for the teachers to express how proud they are of the children and it is a great possibility also for the parents and children to show appreciation to their teachers.
